

Table 1
Mitigation Monitoring and Reporting Program

	Mitigation Measure	Monitoring and Reporting Process	Monitoring Milestone	New Valley City Initials	New Valley City Date
Solid Waste Management					
SW1.	The new Valley City shall seek to ensure that all mixed solid waste that cannot be reduced, recycled, or composted is collected, transferred, and disposed of in a manner that minimizes adverse environmental impacts.	Identify improvements, including solid waste collection systems, disposal infrastructure, and recycling efforts to reduce the volume of solid waste generated by the new Valley City.	Within 24 months after incorporation.		
SW2.	The new Valley City shall maintain an environmentally sound solid waste management system that protects public health, safety, and natural resources and minimizes adverse environmental impacts.				
SW3.	The new Valley City shall prepare a 30-year policy plan that provides direction for the solid waste management decision-making process.	Develop a solid waste and resources management plan. The Plan's strategies and procedures should be correlated with the new General Plan.	Within 30 months after incorporation.		
SW4.	The new Valley City shall establish citywide diversion objectives.				
SW5.	The new Valley City shall define specific programmatic tasks, roles, and responsibilities for source reduction, composting, special waste, and public education goals, as well as an implementation schedule.				
SW6.	The new Valley City shall ensure that it acquires adequate landfill and recycling capacities to dispose of solid waste.	Assess the status of landfill and recycling capacities within the new Valley City and surrounding areas.	Within 24 months after incorporation.		
SW7.	The new Valley City shall pursue the development of a transfer station in the central Los Angeles area that will allow the new Valley City access to desert rail-haul disposal facilities.	Discuss with the Los Angeles County Sanitation Districts and the City of Los Angeles the development of a transfer station.	Within 12 months after incorporation.		
Wastewater					
WW1.	The new Valley City shall ensure that its own wastewater generation is monitored.	Formulate a wastewater plan to provide sufficient capacity to correct existing deficiencies and meet the needs of future growth. This should be part of the new General Plan.	Within 30 months after incorporation.		
WW2.	The new Valley City shall ensure that its own wastewater flow quantities are monitored in the collection system and are conveyed to the treatment plants.				
WW3.	The new Valley City shall ensure that its own wastewater effluent that is discharged into the Los Angeles River and Santa Monica Bay is monitored for compliance with water quality requirements.				
WW4.	The new Valley City shall ensure that its own wastewater is collected and treated as required by law and Federal, State, and regional regulatory agencies.				
WW5.	The new Valley City shall ensure that its own wastewater treatment capacity is maintained commensurate with population and industrial				

	Mitigation Measure	Monitoring and Reporting Process	Monitoring Milestone	New Valley City Initials	New Valley City Date
	needs.				
WW6.	The new Valley City shall ensure that other means of expanding the wastewater system's capacity are reviewed.				
WW7.	The new Valley City shall ensure that its hazardous substances and the total amount of flow entering the wastewater system are reduced.	Adopt strategies to combat the illegal introduction of hazardous substances into the wastewater collection system.	Within 12 months after incorporation.		
WW8.	The new Valley City shall ensure that treated wastewater is used for irrigation, groundwater recharge, and other beneficial purposes.	Determine the feasibility of requiring mandatory use of reclaimed water and installation and use of gray water systems for large-scale projects. Develop procedures to maximize the amount of treated wastewater that can be reclaimed, including possible groundwater recharge and irrigation.	Within 12 months after incorporation.		
WW9.	Should the new Valley City ever assume responsibility for the provision of wastewater service and operation of the wastewater system within its boundaries, it shall accept the obligations of the City of Los Angeles with respect to any then existing wastewater service agreement with the City of San Fernando, unless the three cities agree otherwise.	Accept obligations of the City of Los Angeles with respect to the provision of wastewater service for the City of San Fernando.	Upon taking over responsibility of wastewater system for the City of San Fernando.		
Flood Control and Drainage					
FC1.	The new Valley City shall consider appropriate methodologies to protect significant remaining open spaces for resource protection and mitigation of environmental hazards, such as flooding, in and on the territory of the Valley Special Reorganization, with the following incentives: a. Use of tax incentives for landowners to preserve their lands; b. Development rights exchanges in the local area; and c. Participation in land banking, public acquisition, land exchanges, and Williamson Act contracts.	Formulate a flood control and drainage plan and incorporate into the new General Plan.	Within 30 months after incorporation.		
FC2.	The new Valley City shall preserve floodplains, landslide areas, and steep terrain areas as open space, wherever possible, to minimize the risk to public safety.				

	Mitigation Measure	Monitoring and Reporting Process	Monitoring Milestone	New Valley City Initials	New Valley City Date
FC3.	The new Valley City shall develop a stormwater management system that has adequate capacity to protect its citizens and property from flooding that results from a 10-year storm (or a 50-year storm in sump areas).	Develop and implement a stormwater management program.	Within 30 months after incorporation.		
FC4.	The new Valley City shall assign the cost of stormwater system improvements proportionately to reflect the level of runoff generated and benefits.				
FC5.	The new Valley City shall implement programs to correct any existing deficiencies in the stormwater collection system.				
FC6.	The new Valley City shall ensure that the drainage system located within its territory is adequately maintained.				
FC7.	The new Valley City shall pursue funding strategies that link the sources of revenues for stormwater system improvement to relevant factors, including sources of runoff and project beneficiaries.				
FC8.	The new Valley City shall establish standards and/or incentives for the use of structural and non-structural techniques that mitigate flood hazards and manage stormwater pollution.				
FC9.	<p>The new Valley City shall consider a range of strategies designed to reduce flood hazards and manage stormwater pollution. The strategies considered will include, but not necessarily be limited to, the following:</p> <ul style="list-style-type: none"> a. Support regional and local programs that intercept runoff for beneficial uses, including groundwater recharge; b. Protect and enhance the environmental quality of natural drainage features; c. Create stormwater detention and/or retention facilities that incorporate multiple uses, such as recreation and/or habitat; d. Encourage on-site detention/retention and reuse of runoff; e. Mitigate existing flood hazards through structural modifications (flood-proofing) or property buyout; f. Incorporate site design features that enhance the quality of offsite runoff; and g. Encourage the removal from floodways and sumps of inappropriate structures threatened by flooding and establish appropriate land uses that benefit or experience minimal damage from flooding. h. Investigate watershed management opportunities to maximize capture of local rainfall in the new Valley City, eliminate incremental increase in flows to the storm drain system, and 	Coordinate stormwater management activities with other agencies to promote watershed based approaches.	Within 12 months after incorporation.		

	Mitigation Measure	Monitoring and Reporting Process	Monitoring Milestone	New Valley City Initials	New Valley City Date
	provide filtering flows to capture contaminants.				
FC10.	The new Valley City shall be actively involved in the regional National Pollutant Discharge Elimination System (NPDES) municipal stormwater permit.	Cooperate with the County of Los Angeles and the Regional Water Quality Control Board with respect to NPDES municipal stormwater permit.	Immediately upon incorporation.		
FC11.	The new Valley City shall continue to aggressively develop and implement educational outreach programs designed to foster an environmentally aware citizenry.	Educate the public about the interaction between human and natural systems.	Within 24 months after incorporation.		
FC12.	The new Valley City shall investigate management practices that reduce stormwater pollution to identify technically feasible and cost-effective approaches, through the following: <ul style="list-style-type: none"> a. Investigation of sources of pollution using monitoring, modeling, and special studies; b. Prioritization of pollutants and sources; c. Conducting research and pilot projects to study specific management practices for the development of standards; and d. Development of requirements that establish implementation standards for effective management practices. 	Incorporate stormwater management practices to reduce stormwater pollution into stormwater management program.	Within 24 months after incorporation.		
FC13.	The new Valley City shall submit its Unmet Drainage Needs to the Los Angeles County Public Works' Watershed Management Division.	Evaluate and inventory Unmet Drainage Needs within the new Valley City territory.	Within 24 months after incorporation.		
Water Resources					
W1.	Should the new Valley City ever assume responsibility for the provision of water service within its boundaries, it shall accept the obligations of the City of Los Angeles with respect to any then existing water service agreement with the City of San Fernando, unless the three cities agree otherwise.	Accept obligations of the City of Los Angeles with respect to the provision of water service for the City of San Fernando.	Upon taking over responsibility of water system for the City of San Fernando.		
Transportation					
T1.	The new Valley City shall continue progress in trip reduction through implementation of Clean Air Program projects seeking to meet or exceed 2010 market levels of ridesharing, transit ridership (10.3 percent of peak hour trips), and telecommuting (6.8 percent of peak hour work trips).	Assess transportation conditions and determine progress toward attainment of transportation objectives.	Within 30 months after incorporation.		
T2.	The new Valley City shall proactively support the regional implementation of market incentives to achieve regional levels of trip reduction in State and Federal Clean Air Acts, while protecting the economic future of the new Valley City and the region. The new Valley City shall develop trip reduction targets.	Many of the most effective measures to reduce vehicle trips require regional implementation. Cooperate with regional agencies, such as the South Coast Air Quality Management District and others, to establish regional Transportation Control Measures and other transportation demand management strategies.			
T3.	The new Valley City shall pursue the creation of regional contingency	Formulate a Transportation Element within the			

	Mitigation Measure	Monitoring and Reporting Process	Monitoring Milestone	New Valley City Initials	New Valley City Date
	and/or backstop transportation control measures that utilize market incentives to ensure the ultimate attainment of trip reduction and mobile source emission reduction mandates.	General Plan.			
T4.	The new Valley City shall develop an adequate fiber optics infrastructure to enable continued growth in communications technologies and support the practice of telecommuting to achieve a reduction in home-to-work person trips.	Create a telecommuting program for the new Valley City employees, where and when appropriate.	Within 24 months after incorporation.		
T5.	The new Valley City shall work collaboratively with other local, regional, State, and Federal agencies to expand the ridership of the bus system by 5 percent per year.	Cooperate with local, regional, State, and Federal bus system agencies.	Immediately upon incorporation.		
T6.	The new Valley City shall support the Automated Traffic Surveillance and Control (ATSAC) program throughout the Valley Special Reorganization area.	Begin to implement ATSAC and Smart Corridor programs throughout the new Valley City.	Within 24 months after incorporation.		
T7.	The new Valley City shall work collaboratively with other local, regional, State, and Federal agencies on the development of expanded multi-modal transportation capacity between the Valley Special Reorganization area and North Los Angeles County, leading to the implementation of new capacity by 2010.	Develop Transportation Improvement and Mitigation Plans (TIMPs) for the northern new Valley City and North Los Angeles County that will streamline traffic mitigation procedures.	Within 30 months after incorporation.		
T8.	The new Valley City shall maintain present levels of parking enforcement, traffic control, and traffic engineering.	Formulate a Transportation Element within the General Plan.	Within 30 months after incorporation.		

Fire and Emergency Medical Services

F1.	The new Valley City shall monitor infrastructure and public service capacities to determine need within each community plan area for improvements based upon planning standards.	Create Fire Department protection plans to provide adequate levels of service to existing and future residents and uses in the new Valley City.	Within 12 months after incorporation.		
F2.	The new Valley City shall determine the level of growth that should correlate with capital, facility, or service improvements that are necessary to accommodate that level of growth.				
F3.	The new Valley City shall establish programs for infrastructure and public service improvements to accommodate development in areas that are targeted for growth.				
F4.	The new Valley City shall require that the type, amount, and location of development be correlated with the provision of adequate supporting infrastructure and services.				
F5.	The new Valley City shall identify areas that have deficient fire facilities and/or service and prioritize the order in which these areas should be upgraded based on established fire protection standards.				
F6.	The new Valley City shall develop an acquisition strategy for fire station				

	Mitigation Measure	Monitoring and Reporting Process	Monitoring Milestone	New Valley City Initials	New Valley City Date
	sites in areas that are deficient in fire facilities.				
F7.	The new Valley City shall consider the fire department's concerns and, where feasible, adhere to them, regarding the quality of the area's fire protection and emergency medical services when developing the new general plan and amendments thereto, zoning ordinances and changes in zoning, or considering discretionary land use permits.	Develop a Safety Element for the new General Plan, addressing fire and emergency medical services and advance planning.	Within 30 months after incorporation.		
F8.	The new Valley City shall engage in fire station development advance planning, acknowledging the amount of time needed to fund and construct these facilities.				
F9.	The new Valley City shall enter into mutual aid or mutual assistance agreements with local fire departments to ensure that there is an adequate response in the event of a major earthquake, wildfire, urban fire, fire in areas with substandard fire protection, or other fire emergency.	Work cooperatively with the Fire Departments of the surrounding jurisdictions, as well as with State agencies that deal with fire suppression and emergency medical services, to maintain and improve mutual aid agreements.	Immediately upon incorporation.		
F10.	The new Valley City shall maintain the continued involvement of its Fire Department in the preparation of contingency plans for emergencies and disasters.	Create an Emergency Management Plan in consultation with its Fire Department.	Within 12 months after incorporation.		
F11.	Should the new Valley City ever assume responsibility for the provision of fire protection service within its boundaries, it shall accept the obligations of the City of Los Angeles with respect to any then existing fire service agreement with the City of San Fernando, unless the three cities agree otherwise.	Accept obligations of the City of Los Angeles with respect to the provision of fire services for the City of San Fernando.	Upon taking over responsibility of fire services for the City of San Fernando.		
Police Services					
P1.	The new Valley City shall monitor population, development, and infrastructure and service capacities within each community plan area or other pertinent service area.	Create Police Department protection plans to provide adequate level of service to existing and future residents and uses in the new Valley City.	Within 12 months after incorporation.		
P2.	The new Valley City shall monitor and report police statistics, as appropriate, and population projections for the purpose of evaluating police service based on existing and future needs.				
P3.	The new Valley City shall work with its police services providers to maintain standards for the appropriate number of sworn police officers to serve the needs of residents, businesses, and industries.				
P4.	The new Valley City shall support the provision of additional sworn police officers to meet the safety needs of its territory.				
P5.	The new Valley City shall pursue State, Federal, and other non-conventional funding sources to increase the number of sworn police officers.				
P6.	The new Valley City shall identify neighborhoods in its territory where facilities are needed to provide adequate police protection.				

	Mitigation Measure	Monitoring and Reporting Process	Monitoring Milestone	New Valley City Initials	New Valley City Date
P7.	The new Valley City shall minimize the processing required to establish needed facilities and, if necessary, modify facility standards to utilize existing available structures for this purpose.	Implement streamlined processing for police protection facilities and incorporate safety design into new development and redevelopment.	Within 12 months after incorporation.		
P8.	The new Valley City shall participate fully in the planning of activities that assist in defensible space design and utilize the most current law enforcement technology affecting physical development.				
P9.	The new Valley City shall maintain mutual assistance agreements with local law enforcement agencies, state law enforcement agencies, and the National Guard to provide for public safety in the event of emergency situations.	Work cooperatively with the Sheriff's Department, State law enforcement agencies, the National Guard, and the Police Departments of the surrounding jurisdictions to maintain and improve mutual assistance agreements.	Immediately upon incorporation.		
Other Services					
OS1.	The new Valley City shall ensure that programs for seniors comparable to those presently provided by the City of Los Angeles are provided by the Valley City or other agencies.	Assess the need and develop senior programs. Inform seniors of the services available.	Within 12 months of incorporation.		
OS2.	The new Valley City shall disseminate information on State, Federal, and private sources of senior services that are available to its residents.				
OS3.	The new Valley City shall provide comparable cultural services to its residents.	Assess and begin to develop, if necessary, new Valley City cultural services.	Within 24 months of incorporation.		
OS4.	The new Valley City shall enter into mutual aid or mutual assistance agreements with local fire departments to ensure that there is an adequate response in the event of a major earthquake, wildfire, urban fire, fire in areas with substandard fire protection, or other fire emergency.	Work cooperatively with the Sheriff's Department, State law enforcement agencies, the National Guard, the Police Departments of the surrounding jurisdictions, the Fire Departments of the surrounding jurisdictions, as well as with State agencies that deal with fire suppression and emergency medical services to maintain and improve mutual aid agreements.	Immediately upon incorporation.		
OS5.	The new Valley City shall maintain the continued involvement of the Fire Department in the preparation of contingency plans for emergencies and disasters.				
OS6.	The new Valley City shall maintain mutual assistance agreements with local law enforcement agencies, state law enforcement agencies, and the National Guard to provide for public safety in the event of emergency situations.				
OS7.	The new Valley City shall subsidize DASH service through the mitigation payment to supplement the DASH expenditures of the City of Los Angeles.	Make mitigation payment to City of Los Angeles as required by LAFCO terms and conditions.	Immediately upon incorporation.		

Mitigation Measure		Monitoring and Reporting Process	Monitoring Milestone	New Valley City	
				Initials	Date
Loss of Certain Revenue Sources					
LR1.	The new Valley City shall achieve any necessary cost savings in a manner that is consistent with, and does not disregard or contradict, the mitigation measures set forth in this Program EIR.	Develop a municipal budget that supports stewardship of the environment as put forth in the <i>Final Environmental Impact Report, Special Reorganization of the San Fernando Valley.</i>	Within 12 months after incorporation.
